

The screenshot shows the Manychat app interface for creating an 'Instagram Default Reply'. On the left, there's a sidebar with navigation icons and a green 'Attiva...' button. The main area has a title 'Instagram Default Reply' with a help icon. It shows a trigger 'User sends a Direct Message' followed by a 'Default Reply' action. An arrow points from this action to a 'Then...' section where a message template is displayed. This template includes a welcome message, three questions, and a note to reply. Below the template is a logo for 'Pasticceria ELVEZIA' with the text 'Voghera dal 1992'. There are also buttons for 'Modifica Automazione' (Edit Automation), 'Sostituire' (Replace), and 'Vai A Basic Builder' (Go to Basic Builder). At the bottom right, there are buttons for 'Next Step' and a question mark icon.
